## KEEPING YOUR COLOUR SALON-FRESH

Wait 48 hours before your first wash so the colour can settle fully into the hair.

Wash less often and turn the water temperature down a notch - heat is what fades colour fastest.

Use a colour-safe, sulphate-free shampoo and conditioner. We only stock the ones we actually trust, ask us in salon.

Add a weekly bond-building or gloss treatment to keep tone and shine between appointments.

Protect from heat: use a heat protectant before styling and keep straighteners below 185C.

Book a gloss or toner refresh every 4-6 weeks to keep blondes cool and colour vibrant.
